Specialty Screen

Consumers Are Asking for Specialty Screen Solutions

Saint-Gobain ADFORS understands the needs of the market based on numerous focus groups we've conducted. Homeowners have a preference towards using specialty screening to suit their specific functional needs, and are willing to pay a premium for it.

Our Specialty Screen assortment offers consumers the premium functionality they desire. For a minimum investment over standard fiberglass, specialty screens give much higher profit potential with each sale. Increase profits by offering ADFORS specialty screening.

ViPer

ViPer - Vision Perfect screening is the clear-cut choice for premium quality and clarity. ViPer utilizes an enhanced tighter weave and finer mesh woven from smaller refined yarns as compared to standard fiberglass screening. This construction allows for sharp and brilliant visibility through windows and doors, and better airflow and insect protection.

Available in charcoal color.

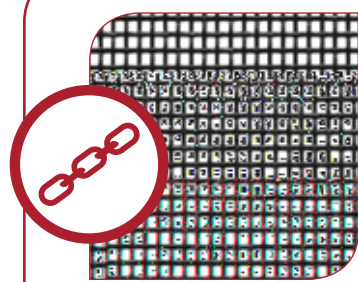

Mesh: 18 x 18, Diameter: .009

100' Rolls

Widths: 18", 24", 28", 30", 32", 34", 36", 48", 60", 72"

600' Rolls

Widths: 18", 20", 24", 26", 28", 30", 32", 34", 36", 48", 60", 72"

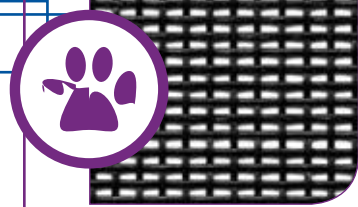

Extra Strength

Extra Strength screen is our strongest fiberglass screen. The Extra Strength screen's heavy weight weave is 40% stronger than standard fiberglass mesh providing greater protection and long-lasting durability while offering excellent outward visibility. Available in charcoal color.

Mesh: 18 x 14, Diameter: .013

100' Rolls

Widths: 36", 48"

Pet Resistant

Ultra strong screening resists tears and damage by dogs and cats yet still offers superb outward visibility. Ideal for areas where children or pets push against the screen.

Available in charcoal color.

Mesh: 14 x 10, Diameter: .025

100' Rolls

Widths: 36", 48", 60"

Smallsect

A more closed fiberglass mesh to protect against no-see-ums, gnats, sand flies, and other tiny insects common in low marshy and coastal areas. Available in charcoal color.

Mesh: 20 x 20, Diameter: .013

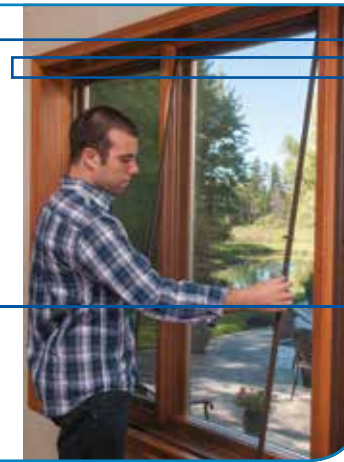

Pollen Guard

Pollen Guard screen is specially designed to block up to 50% more particles than standard fiberglass insect screen. This screen is a unique polyester knit fabric that creates a barrier for most pollen, dust, and other allergen particles making it ideal for allergy sufferers. Pollen Guard screen allows air to flow in while keeping dust and pollen particles out. Available in charcoal color.

100' Rolls

Widths: 36", 48"

Sun Guard

A fiberglass screen crafted to block up to 75% of the sun's rays entering a building. Reduces air conditioning cost and prevents fading of furniture and carpets indoors. Perfect for exposed patios, decks, sliding doors and windows.

Available in charcoal color.

Mesh: 54 x 18, Diameter: .011

100' Rolls

Widths: 24", 30", 36", 48", 60", 72", 84" & 96"

Pool & Patio

Heavy-duty fiberglass mesh designed for use in pool, patio, porch and sun room enclosures. It is ideal for larger openings where extra strength is needed. Available in charcoal color.

Mesh: 18 x 14, Diameter: .013

100' Rolls

Widths: 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96", 102", 108"

Below you'll find the features and benefits of each of our screen types in one, easy to read chart. ADFORS also offers an online selector tool for customers that will help them to choose the screen best suited for them based on their specific needs.

Visit www.adfors.com to use the tool.

Charcoal

Galvanized Steel

Bronze Comprised of 90% copper and 10% zinc. Premium bronze screen of strength and durability with a bright gold finish that will resist green patina.
